USER GUIDE

WHAT IS UNICWRINKLE-STOP?

INTENSIVE ANTI-AGEING SERUM: ANTI-WRINKLE AND ANTIOXIDANT

This intensive anti-ageing serum is designed to target visible signs of ageing, reduce wrinkle depth, and improve the skin's firmness and elasticity.

Its advanced formula, with powerful antioxidant action, combines highly effective active ingredients that deeply hydrate, boost cellular regeneration, protect the skin barrier, and promote a rejuvenated, radiant complexion.

♥ BENEFITS

- Visibly reduces deep wrinkles.
- Improves the skin's firmness and elasticity.
- Provides intense and long-lasting hydration.
- Protects against free radicals and environmental pollution.

⚖ PROVEN EFFICACY

71% YOUNGER SKIN*

67% LESS WRINKLES*

SKIN REJUVENATED BY **12** YEARS**

🌿 ACTIVE INGREDIENTS

- **Argireline (5%):** Prevents and reduces expression lines and deep wrinkles. Clinically proven as a natural alternative to Botox.
- **Hyaluronic Acid:** Low molecular weight. A powerful moisturiser that penetrates the deeper layers of the skin, providing long-lasting hydration. It also enhances the absorption of active ingredients and plumps wrinkles from within.
- **Black Grape Stem Cells (2%):** A potent antioxidant that boosts collagen fibres and slows down skin ageing, preserving skin vitality and combating visible signs of ageing.
- **Orange Stem Cells (3%):** Help prevent and soften wrinkles while restoring the skin's natural radiance. They renew the skin and increase firmness and elasticity.

💧 SENSE

A lightweight, silky-textured serum that absorbs quickly, leaving the skin instantly soft. Ideal for incorporating into your daily skincare routine.

* Consumer test: 20 women aged between 40 and 50. Applied NaturCells Anti-aging twice a day for 28 days.

** In vivo efficacy test after using Citrustem™ twice a day for 56 days. 20 women aged between 41 and 55.

HOW TO USE

Skin Preparation:

- Thoroughly cleanse the face with an appropriate cleanser, such as **UNICDETOX & GO**, to remove makeup residue, impurities, and pollution.

Application:

- Gently shake the bottle before use to ensure the active ingredients are evenly mixed. Dispense 3–4 drops of the serum using the dropper and apply them to your fingertips or directly onto the key areas of the face: forehead, cheeks, and chin.
- Massage in upward, circular motions until fully absorbed. Do not forget to apply it to the neck and décolleté for even coverage.

Frequency of Use:

- Use twice daily, morning and evening, as part of your daily skincare routine. If you have sensitive skin, you may begin by applying it once a day during the first week to allow the skin to adapt.

Combining with Other Products:

- In the morning, follow with an SPF 50 sunscreen, such as **UNICSUN+ DARK SPOT CONTROL**, to protect the skin.
- In the evening, apply a hydrating cream like **UNICA+ 72H HYDRO+** to maximise both anti-ageing and moisturising results.

Additional Recommendations:

- To enhance results, combine with the **UNICLED KOREAN MASK** for targeted anti-ageing treatments.
- We also recommend pairing it with **UNICHYDRO-ACTIVE** for intense, soothing hydration. Layer serums one by one, allowing each to fully absorb (30 seconds to 1 minute) before applying the next. Do not mix them directly to preserve the efficacy of the active ingredients.

PRECAUTIONS

- **Topical Use:** Product intended for external use only. Do not ingest.
- **Mandatory Sun Protection:** It is essential to use a sunscreen with a minimum of SPF 50 during the day, especially if this treatment is used regularly. This helps prevent additional pigmentation or sensitivity caused by depigmenting acids. We recommend complementing it with **UNICSUN+ DARK SPOT CONTROL**.
- **Sensitivity Test:** Before full use, perform a patch test on a small area of the face (such as behind the ear or on the side of the neck). This ensures the product's compatibility with the skin, particularly for sensitive or reactive skin types.
- **Avoid the Eye Area:** Although safe for facial use, avoid applying it to sensitive areas such as the eye contour. In case of accidental contact, rinse thoroughly with plenty of water.
- **Do Not Combine with Other Exfoliants:** Avoid simultaneous use with products containing retinoids, exfoliating acids, or strong depigmenting actives unless recommended by a dermatologist.
- **Do Not Apply on Damaged or Irritated Skin:** In cases of cuts, wounds, sunburn, or irritation, discontinue use until the skin has completely recovered.
- **Keep Out of Reach of Children:** Product intended for adult use only due to its high concentration of active ingredients.
- **Proper Storage:** Store in a cool, dry place away from direct sunlight to maintain the stability of the formula.
- **Safe Formulation:** Product based on natural ingredients, suitable for all skin types, and dermatologically tested to ensure safety and efficacy.
