SENSORIALITY

Light serum texture. Ophthalmologically tested.
Dermatologically tested. Non-irritating.

15 ml

HOW TO USE

Morning and Evening:

Step 1: Cleansing, before applying UNICEYES TRIPLE ACTION, cleanse the skin thoroughly with a gentle cleanser, such as UNICDETOX & GO, to remove impurities and prepare the skin for the absorption of the active ingredients.

Step 2: Applying the eye and lip contour.

- Place a small amount of the product on the tip of your ring finger (which exerts the least pressure on the skin).
- Apply to the eye contour, including the area of dark circles and crow's feet, with gentle touches from the inside out.
- On the lip contour, apply with circular movements to improve absorption and stimulate microcirculation.

Step 3: Draining massage, to enhance the action of the product, lightly massage with the fingertips in upward movements from the tear trough to the temples.

Step 4: Finish with moisturizing and protection (during the day):

- Apply your usual serum and moisturizer.
- Don't forget to use a sunscreen (UNICSUN+ DARK SPOT CONTROL) if it is daytime.

Precautions:

- Avoid direct contact with eyes: If contact occurs, rinse with plenty of water.
- Do not apply to irritated or injured skin.
- External use only.
- Perform a sensitivity test before use: Apply a small amount on the inside of the wrist and wait 24 hours to rule out adverse reactions.
- Store in a cool, dry place: Avoid direct sun exposure or extreme temperatures to preserve its efficacy.

This treatment is safe and dermatologically tested, but if you experience any reaction, discontinue use and consult a specialist.

Q&A

Which Dermocosmetics and Technobeauty products can I use this product with to enhance the results?

The skin around the eye contour is very thin and requires specific daily care, which is why we recommend using our eye contour cream in any beauty routine, both morning and night.

In addition, to boost results we recommend applying our eye contour before using our UNICTECH EYE MASK device, specifically designed for eye care, as it acts as a technology enhancer for a younger and more radiant look.

If you want extra care for your eye area, you can apply our UNICCOLLAGEN FLASH EYE MASK collagen patches after the contour + device treatment.

Does it also treat the lip contour?

Yes, it helps reduce signs of aging around the lips, an area prone to developing wrinkles.

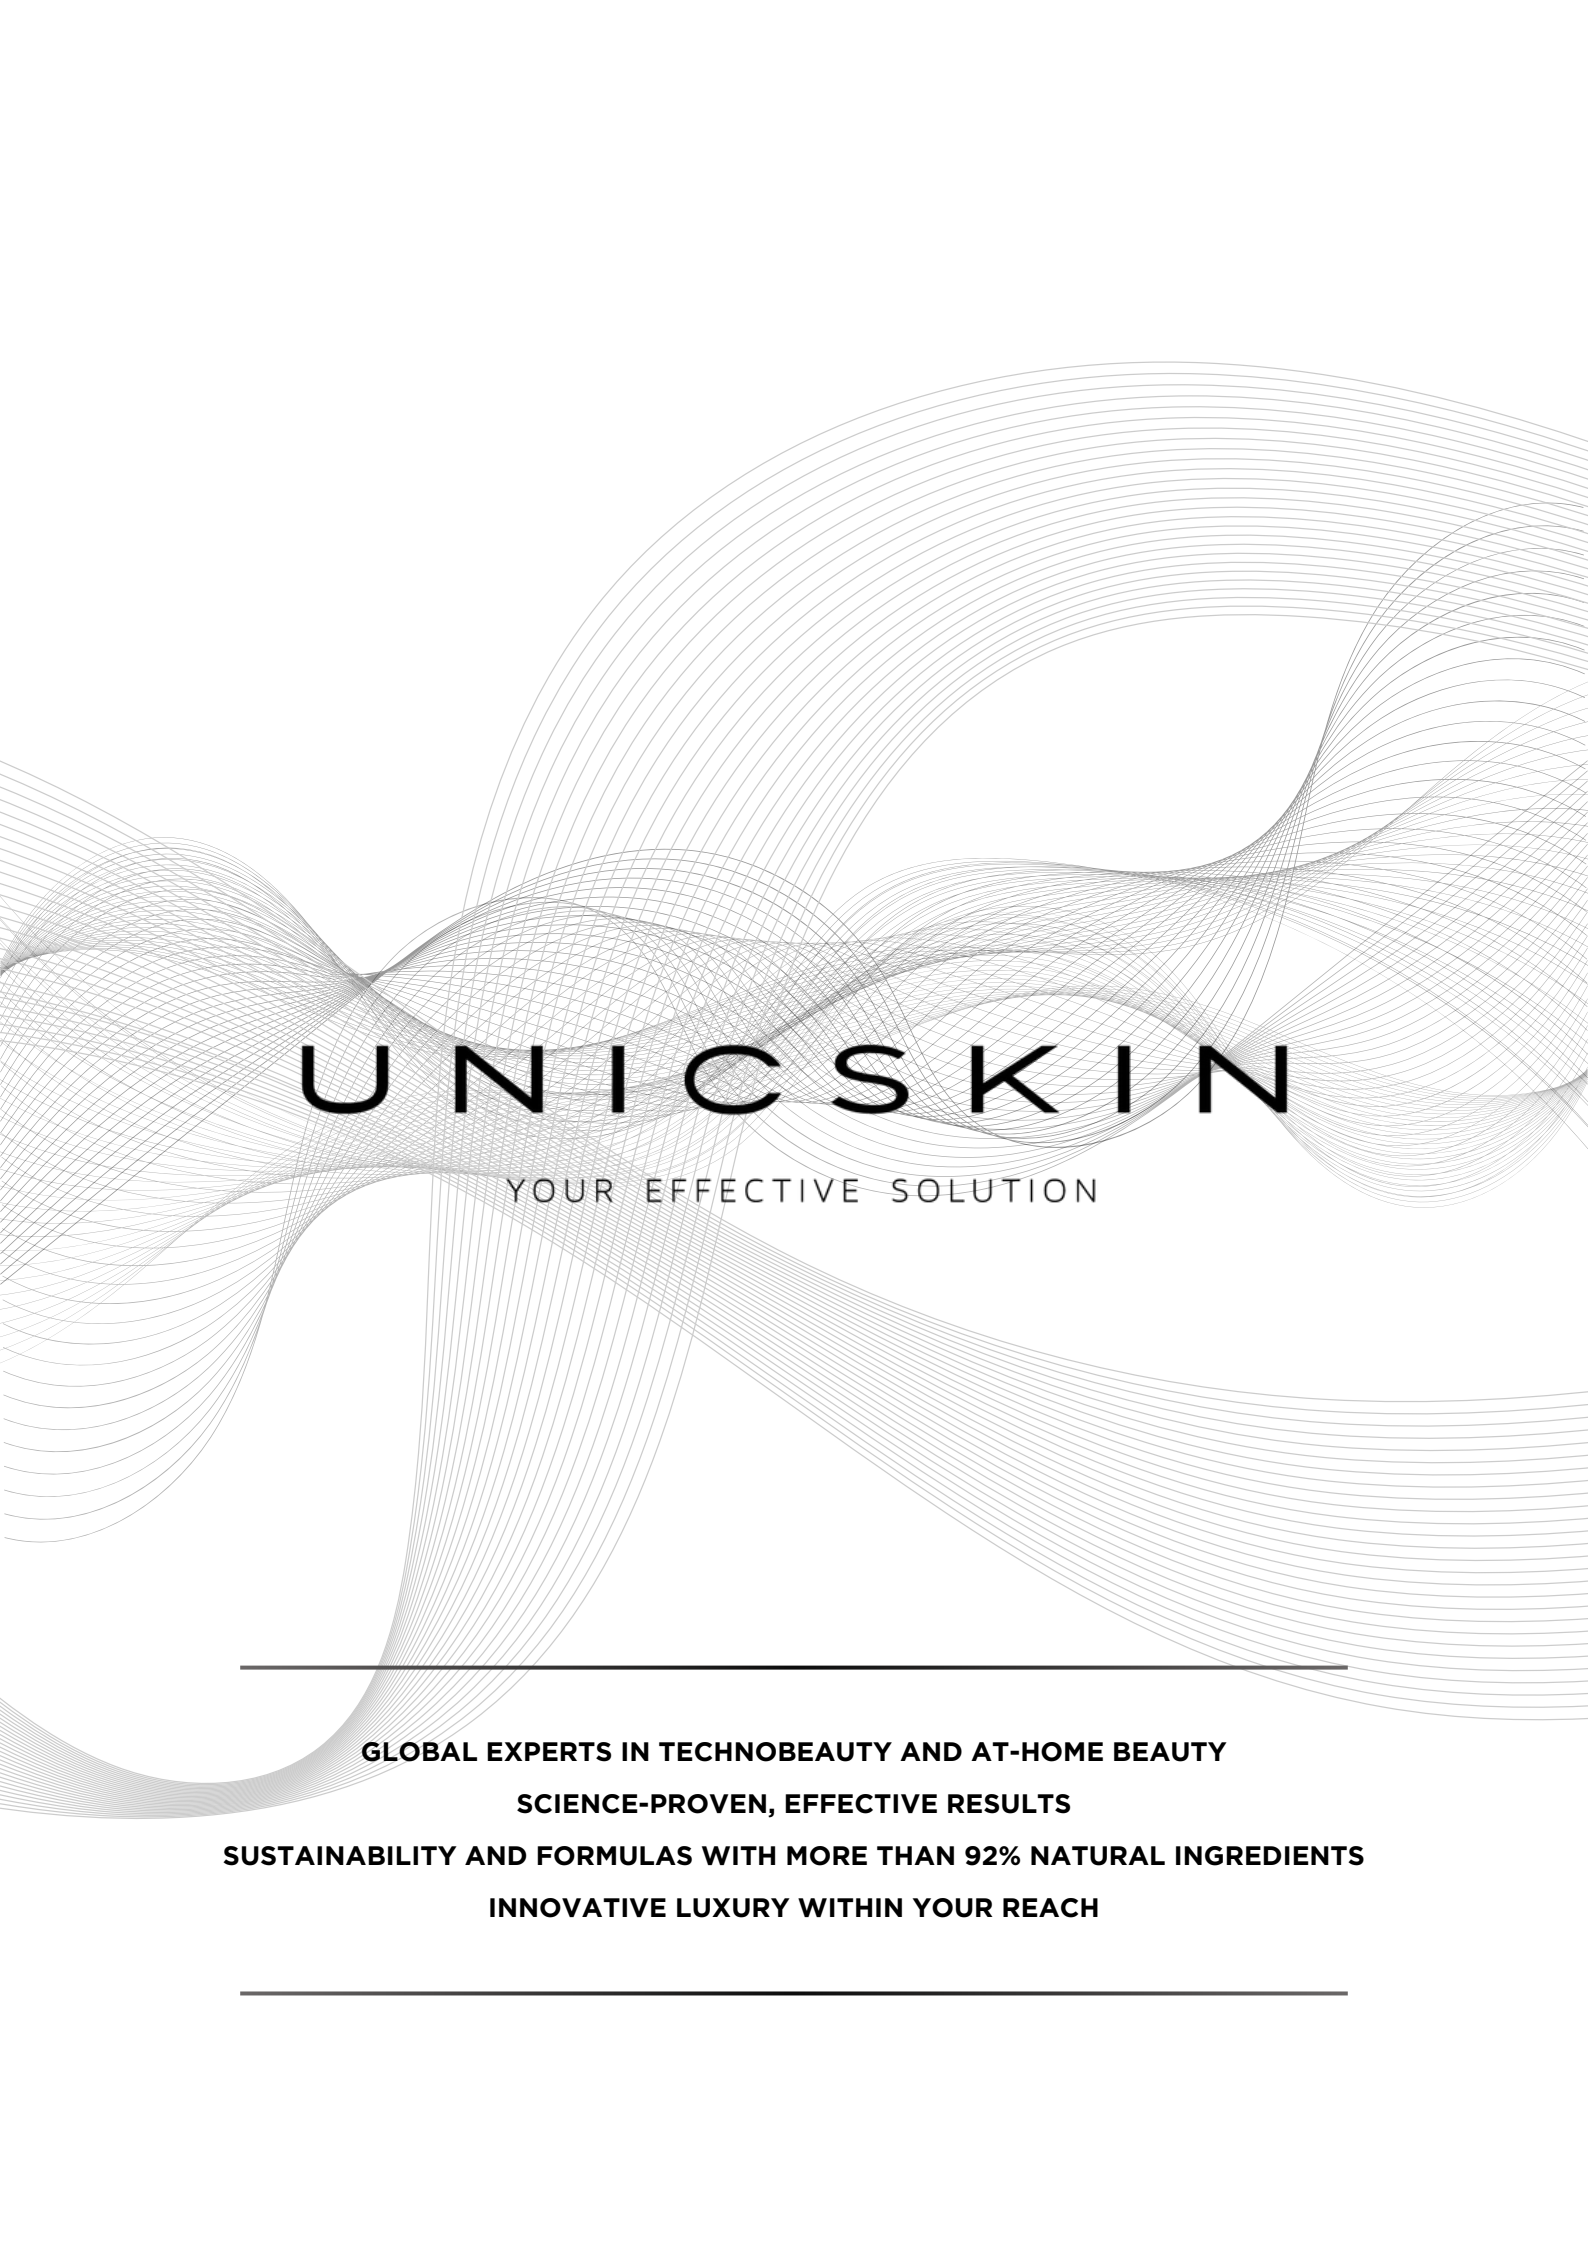

To enhance the effect, you can also combine its use with our UNICCOLLAGEN VOLUME LIP MASK collagen patches.

Is it suitable for pregnant and breastfeeding women?

It is not recommended for pregnant or breastfeeding women because it contains caffeine. However, you may consult your gynecologist if you have any concerns.
