SERUM WITH EXOSOMES: CELL RENEWAL FOR REVITALIZED & YOUTHFUL SKIN.

REDUCE FINE LINES · RESTORES FIRMNESS & ELASTICITY ·
ENHANCES SKIN NATURAL RADIANCE

PRODUCT SHEET

UNICCELLULAR ACTIVE+

SERUM WITH EXOSOMES

Medical oncology discovers in exosomes a revolutionary technology to repair and reprogram damaged cells.

UNICSKIN brings to your home, transforming skin care with cutting-edge science and technology.

The essential first step in your daily routine, designed to enhance all your subsequent treatments.

WHAT MAKES THIS PRODUCT **UNIQUE**?

This revolutionary serum reprograms and restores skin cells, accelerating their regeneration and enhancing texture, firmness, and radiance.

Designed to be used as a primer before specific treatment with any of the UNICSKIN serums.

♥ **BENEFITS**

The exosomes enter the cell and act as messengers for:

- Cell renewal for a revitalized and youthful skin.
- Reduction of fine lines and wrinkles.
- Restores firmness and elasticity.
- Enhances skin natural radiance.

🧪 **PROVEN EFFICACY**

80% RENEWED & MORE RADIANT SKIN*

62% YOUNGER SKIN**

SKIN BEHAVING AS 17 YEARS
YOUNGER AFTER 2 MONTHS***

🌿 **ACTIVE INGREDIENTS**

- **AC ExoVitalize (5%)**: Exosomes are microscopic vesicles released by stem cells that act as cellular messengers. They fuse with the membrane of other skin cells, reprogramming and restoring their function.
- **Phylderm® Vegetal (5%)**: Stimulates cell metabolism and oxygenates cells to revitalize and illuminate the skin.
- **Reproage® (2%)**: A peptide that reprograms skin cells, restoring their renewal capacity.

HOW TO USE

THE FIRST STEP OF YOUR SKINCARE

- 1 **Prepare** - Morning and night, apply 2 drops of UNICCELLULAR ACTIVE+ before any serum to reprogram cells and stimulate collagen, elastin, and hyaluronic acid production.
- 2 **Treat** - Follow with your serum and cream according to your needs: hydration, wrinkles, firmness, dark spots, radiance, or acne. Mix and match serums as needed!
- 3 **Protect** - Finish with your cream and apply SPF 50 every morning to correct dark spots and protect against pollution and blue light.
