UNICD-PIGMENT X-TREME COMPLEX

EXPERT BRIGHTENING & DARK SPOT CORRECTING NIGHT TREATMENT

Next-generation night treatment, formulated to **restore radiance to the skin** and effectively **target dark spots, age spots, and hyperpigmentation**.

Its intensive action works while you sleep, visibly reducing spots and preventing their appearance thanks to an **exclusive combination of patented active ingredients and botanical extracts**. Skin wakes up clearer, more even-toned, and radiant.

WHAT MAKES THIS PRODUCT UNIQUE?

Developed from the latest advances in cellular biotechnology, this night treatment goes beyond the visible: **it targets the biological mechanisms that trigger hyperpigmentation and neutralizes them at the source**. Its **patented formula** combines next-generation clinical actives with botanical extracts to treat, prevent, and transform the skin while you sleep.

♥ BENEFITS

Visible results every morning:

- Reduces dark spots.

🌿 ACTIVE INGREDIENTS

- **Gatuline® Spot Light (3%)**: A complex derived from Kiwi and Sophora extracts that reduces melanin synthesis and enhances cell renewal, helping to reduce and prevent dark spots while delaying the glycation process.
- **Kojic Acid**: A naturally derived active that targets melanocytes, inhibiting melanin production and helping to even out skin tone.
- **Glycyrrhetic Acid**: Extracted from licorice, it reduces pigmentation and erythema caused by sun exposure.
- **Vitamin K**: A highly effective cosmetic active that helps decongest, soothe skin redness and irritation, and naturally revitalize the skin.

HOW TO USE

4-week night treatment.

- **Week 1**: Use every other night to allow the skin to adapt..
- **Weeks 2, 3, and 4**: Apply every night if the skin tolerates it.

To enhance results, complete the **360° depigmenting ritual** with the **green light** of the **UNICLED CENTURION MASK** after application, and apply **UNICSUN+ DARK SPOT CONTROL** in the morning to protect the skin and prevent dark spots from reappearing.
