CONDUCTIVE METAL PLATES for the different technologies: Radiofrequency, Microcurrents (EMS) and Slim

TONE & SCULPT MODE | EMS + LED

Benefits

- ✓ Eliminates flaccidity
- ✓ Defines localized areas
- ✓ Tones up muscles

EMS Technology

Microcurrent technology that stimulates and generates muscle contractions using low and medium frequency electrical impulses.

Green LED light 530nm

Helps stimulate cellular activity and increases collagen production, helping to reduce inflammation and sagging.

BURN FAT MODE | SLIM + LED

Benefits

- ✓ Reduces localized fat
- ✓ Improves skin's appearance
- ✓ Reshapes the silhouette

Slim Technology

Small, medium-frequency electrical pulses that stimulate muscle movement to help burn fat.

Blue LED light 465nm

It helps cell renewal and the production of oxygen radicals that allow the elimination of toxins, while also reducing inflammation.

CELLULITE & ELASTICITY MODE | RADIOFREQUENCY + LED

Benefits

- ✓ Eliminates cellulite
- ✓ Tightens the skin
- ✓ Reduces flaccidity
- ✓ Helps to drain

RF Technology

It emits high-frequency electromagnetic waves, heating the different layers of the dermis, promoting collagen production, and improving lymphatic drainage and circulation.

Red LED light 620 nm

It energizes cells, stimulates collagen production, and improves circulation, promoting the reduction of inflammation and the elimination of toxins.

ALL-IN-ONE | SLIM + RADIOFREQUENCY + LED

Benefits

- ✓ Reduces localized fat
- ✓ Eliminates cellulite
- ✓ Remodels the silhouette
- ✓ Reduces flaccidity
- ✓ Firms the skin
- ✓ Helps to tone

Double Technology

SLIM and RADIOFREQUENCY for a complete body treatment.

Violet LED light 415nm

It increases cell regeneration, promotes deep elimination of toxins, reduces inflammation and improves healing and circulation.
